

Quick Connect Capture Plates Demco, 5th Airborne, Rotoflex

(Part# 331709, 331750, 331751, and 331756)

- Locate the correct illustration to the right, that corresponds to your Quick Connect Capture Plate.
- 2. Slide the Quick Connect Capture Plate onto the pin box plate.
- 3. Apply red label Loctite® to the threads of each set screw.
- 4. Using an allen wrench, thread the set screws flush against the outside wall of the Capture Plate.
- 5. The set screws will not contact the body of the king pin box, they will suspend the Capture Plate on the king pin plate lip.
- 6. The Quick Connect Capture Plate will be positioned correctly for towing, once you have hooked up.
